

Ocean County Vocational Technical School

Sharing Success Stories

Greetings from Georgian Court University

Student: Angela Koletis

Class of: 2015

OCVTS Program: Child Care Professions

Center: Brick

Instructors: Laura Morelli and Amy Mayer

Post-Secondary School: Georgian Court University, Lakewood, NJ

In Angela's own words... OCVTS helped me discover my true passion for teaching. I always knew that I wanted to teach and help children with special needs, but the Child Care Professions Program showed me how rewarding a career in education can be. As well as attending school at Georgian Court University, I am now an assistant preschool teacher at The Malvern School in Jackson.

I am now attending Georgian Court University, where I am in both the University Honors Program, and the Psychology Scholars Program. My majors are elementary education and psychology. After I complete my Bachelor's Degree in Elementary Education and Psychology, I am going to attend graduate school at GCU for Applied Behavior Analysis and become a Board Certified Behavioral Analyst.

Someone once told me that going to vo tech would be a mistake because vo tech will never get you a career other than fast food. Well, I am living proof that people like that are WRONG. My academic

achievements at OCVTS have led me to winning a gold medal and placing first in the State of New Jersey at SkillsUSA for Professional Development Portfolio, and winning the Most Outstanding Student Award for Child Care Professions at graduation 2015. I also received an amazing scholarship to GCU. If you work hard and are truly dedicated in your field, your hard work will pay off.

I would like to personally thank Ms. Morelli and Ms. Mayer. These women were such an inspiration to me and they are part of the reason that I have gotten this far in my educational career at such a young age. They were like second mothers to me all throughout my OCVTS experience. They are the most kind-hearted, devoted, selfless women that I have ever met. I love them both.

Both Laura Morelli and Amy Mayer concurred, "Angela was one of the finest and brightest students that we have had the pleasure of teaching in our Child Care Professions Program. She will make great strides in the education field. We wish her continued success!"
