OCVTS Program: Building Construction Technology, Brick Center – Mark Muraczewski, Instructor

Student: Troy Skodmik (left)

Employer: Display Designs, Jackson - Owner Harvey Hacker (right)

Website: displaydesigns1.com

Display Designs is a multimillion dollar international business. This unique business designs and constructs visual displays, themed restaurants and installs new showrooms. Visitors to their facility experience the “wow factor.” Harvey Hacker, owner of Display Designs in Jackson, NJ commented that Troy is a true delight to have on our staff. He is intelligent, courteous, and is a hard working young man who will make a great living for himself. Troy is well liked by all here at Display Designs. displaydesigns1.com

Mark Muraczewski, instructor of the Building Construction Technology Program at the Brick Center wanted to share some kind words about his former student, Troy Skodmik. “Troy spent two years in my class learning the fundamentals of the building trades. He was a fine student who took pride in his work. He always came prepared and was ready to assist in daily operations where needed in the shop. In his second year, Troy acquired employment at Display Designs via our Job Services Department’s Help Wanted ads. I was delighted for him and I wish him nothing but the best in his future endeavors.”

Given the complimentary remarks from both his boss and his instructor, here’s what the OCVTS graduate had to say... “I went to Vo-Tech for two years and it was a great place to learn and develop skills needed for a construction career. Every day I continue to learn something new at Display Designs. I enjoy everything I do and like the guys I work with. What a great way to start my career!” Troy Skodmik, Class of 2014.
