OCVTS Program: Aviation & Aerospace Technology, Jackson Center - Mark Lamb, Instructor

Student: Tommy Beyer (pictured)

Employer: First in Flight, Hillsborough - Vincent Giglio, Owner

Website: firstinflightnj@aol.com

“It all started when my Vo-Tech class took a trip to First in Flight, an aircraft maintenance facility at Monmouth Executive Airport. The lead mechanic and owner of the business told the class of an internship program. I seized the opportunity and began working the summer of my junior year. Currently, I maintain and repair single and multiple engine airplanes as well as helicopters. I attribute my success to my instructor, Mark Lamb and OCVTS. I do not know where I would be today with aviation.” Tommy Beyer, Class of 2013

Being a straight “A” student in his Aviation/Aerospace Technology Program, Mr. Lamb knew Tom would be successful and he is extremely proud of Tom’s accomplishments.

Vincent Giglio, Tom’s boss (himself a former graduate of OCVTS) commented, “Since joining First in Flight, Tom has demonstrated excellent work habits and a genuine ability to read, comprehend and execute technically complex tasks. This ability, I believe, comes from exposure to quality education and hands-on practice in the classroom.”

FYI - First in Flight is an aircraft maintenance facility located at the Central Jersey Airport in Hillsborough, NJ. It is a privately owned public use airport which offers a full range of services including 24 hour self-serve, flight school, maintenance and aircraft services. The strategic location of the airport brings you all the vital conveniences required to serve the NJ-NY Metropolitan area. First in Flight is fully dedicated in making recreational or business aviation a pleasant & safe environment.
