OCVTS Program: Medical Assisting, Toms River – Marlene Damon, Instructor

Student: Zuleyma Flores (pictured)

Employer: Ocean Renal Associates Pa, Brick

Website: oceankidneydoctors.com

Ocean Renal Associates Pa plays an integral part in training the students in the OCVTS' Medical Assisting Program. All three of their locations in Brick, Toms River and Manahawkin participate as externship sites. Marlene Damon, Instructor of the Medical Assisting Program, assigned Zuleyma at Ocean Renal Associates for her externship. They wanted to share the following comment, "Zuleyma was assigned to our practice as part of her clinical studies through OCVTS. From the start, she demonstrated absolute professionalism, knowledge, and compassion. We are happy to have her as part of our Ocean Renal family."

Just looking at the smile on Zuleyma's face, we believe that she is happy to be employed at Ocean Renal. "Working at Ocean Renal is a great experience for me. Not only do I learn new things, but I am putting to use everything I have learned at OCVTS. Like Mrs. Damon said...this is the real world," comment from Zuleyma.

When asked to comment, Marlene Damon reflected, "Zuleyma Flores was an exceptional student. She competed at the HOSA National Leadership Conference in Orlando, Florida and placed 4th in the Nation for Medical Assisting. It was obvious that Zuleyma worked hard achieving her goals." It is gratifying to know that her hard work has been rewarded by securing employment in such a wonderful medical facility as Ocean Renal Associates.
