OCVTS Program: Automotive Technology, Brick Center – Jay Houle, Instructor

Student: Michael Noe (left)

Employer: Pep Boys, Brick - John Conlon, Manager (right)

Website: pepboys.com

“Pep Boys has been around for over ninety years serving our community. We are proud to hire within the township and work with the schools to further educate the students that come out of their programs. Michael is a great employee and he continues to learn something new everyday.”
John Conlon, Manager

“Since I’ve started working at Pep Boys, I feel I have learned a lot. However...I strongly feel that attending Ocean County Vocational Technical School’s Automotive Technology Program has given me the ability to excel. I got a jump on my career in automotive repair.” Michael Noe (Class of 2014)

Michael attended the Automotive Technology Program at the Brick Center where he maintained a solid “B” average. Jay Houle, his instructor said, “Mike was an eager student always willing to learn. He was excited to graduate from OCVTS and start his career. I knew Mike would make a great addition to any organization. Good Luck!”
