OCVTS Program: Automotive and Diesel Technology, Jackson Center – Greg Cullen, Instructor

Student: Jesse Dill (left)

Employer: STS Tire and Auto Centers, Whiting - Tyler Layer, Manager (right)

Website: ststire.com

STS Tire and Auto Centers continue to grow in Ocean County. Their newest location on Route 70 in Whiting opened up six months ago. Tyler Layer, Manager of the STS was happy to share some comments. “Jesse Dill is an asset to my business. He is an intelligent young man with a good background of skills. Jesse has been helping me and STS grow in the community. I’m pleased to hire students from the Vo-Tech Schools because of the solid training they get there.”

Greg Cullen, Instructor of the Auto Diesel Program, had these sentiments to share, “Jesse Dill was a student I enjoyed having in class. He had a natural curiosity to understand how mechanical things work so he was a good participant in the classroom and the shop. Jesse did well on the year end NOCTI testing in both the written and practical tests. I also found Jesse to be responsible and mature so I was able to count on him as a ‘go to’ student in the shop. Jesse’s character and ability to learn will allow him to be successful in the auto/diesel repair industry.”

Jesse Dill (Class of 2014) is appreciative of the skills set that he received in the Automotive and Diesel Technology Program. He was happy to say, “OCVTS has helped me by teaching me the proper use of tools, the basics of auto mechanics and how to operate safely in the shop.”
