Design and Visual Communication

Emphasizes preparation for both employment and continuing education at a post-secondary institution. Students select from eleven ten-week courses consisting of conventional and digital skills required in various visual art and communication careers.

Multimedia: Emphasizes the creation of digital art for print, video and electronic media. This component of the program includes courses in: Image Manipulation, Vector Art, 2D Animation, Interactive Design, Web Design, Video Production and 3D Printing, as well as classes in the Adobe Certified Associate for Illustrator and Premier.

Digital Reproduction: Emphasizes the use of current technologies in both conventional printing and digital reproduction. This component of the program includes courses in: Design and Reproduction, Screen Printing, and Production Graphics, as well as classes in the Adobe Certified Associate for InDesign.

Photography: Covers the techniques of traditional and digital photography highlighting skills required in advertising, portraiture, multimedia and fine art. Includes courses in: Digital Photography, Multimedia Photography, Film and Darkroom Photography, and Studio Lighting, as well as classes in the Adobe Certified Associate for PhotoShop.

Continuing Education Opportunities

Ocean County College
Brookdale Community College
Boston University- Center for Digital Arts
Rochester Institute of Technology
Clemson University
School of Visual Arts
Academy for Media Productions (AMP)

A Tech Prep agreement is in place with several colleges, enabling qualified students to receive college credits upon successful completion of the course and portfolio review.

A Jump Start program is in place with Ocean County Colleges, enabling qualified students to receive college credits for the classes they take in the DVC Program. Students enrolled in the Jump Start Program are students at both OCC and OCVTS.
