

Plumbing, Pipefitters, Steamfitters & Fire Suppressions Systems

Brick Center *(Jackson Center 2025)*

2 Year Program

John Schleicher

Plumber, pipefitters, and steamfitters assemble, install, alter, and repair pipelines or pipe systems that carry water, steam, air or other liquids or gases. They also may install heating and cooling equipment and mechanical control systems. Plumbing represents one of the most profitable and largest sources of construction employment.

Related Job Titles

Plumber
Pipefitter
Steamfitter
Inspector
